PROFILE

React.js developer with hands-on experience in building scalable, responsive, and multi-tenant web applications using Next.js, React, and Tailwind CSS. Skilled in developing reusable components, managing state, integrating APIs, and collaborating with backend.

SKILLS

- | | | |
|--------------|---------------------|---------------------|
| • HTML | • Redux | • Zod |
| • CSS | • Tailwind CSS | • React Date Picker |
| • JavaScript | • MUI (Material UI) | • Framer Motion |
| • TypeScript | • Next UI | • Prisma |
| • React.js | • TanStack Table | • PostgreSQL |
| • Next.js | • React Hook Form | • Git |

EXPERIENCE

Devize

Front-end Developer | 15 March, 2024 - 31 July, 2025

<https://devize.cloud>

- Developed a complete responsive landing page from scratch using Next.js.
- Built and maintained key ERP modules like Payroll, Finance, and Business Settings using dynamic forms, protected routes, and reusable React components.
- Used React Hook Form, Yup, and TanStack Table for complex form validation and data tables.
- Collaborated closely with the backend team for API integration and maintained code quality through regular reviews.

PROJECTS

HR Management SaaS – Multi-Tenant Web App

[source code](#) [visit app](#)

- Built a full-stack, multi-tenant HR management platform with Next.js, React, PostgreSQL, and Prisma.
 - Implemented subdomain-based routing to isolate tenant data, using tenantId to scope all operations.
 - Integrated JWT-based authentication, centralized RBAC, and a secure invite system for onboarding users.
 - Developed modules for leave requests, employee management, and leave tracking.
 - Used Zod + React Hook Form for regex-based client and server-side validation (e.g., Aadhaar, PAN).
 - Enabled server-side filtering, pagination, and performance-optimized database queries.
 - Leveraged Server Actions and API routes for secure, scalable form handling.
-
