ABOUT ME

Am Hafis and am a self taught developer . My journey began with online tutorials and courses that laid the foundation for my **skills**, I decided to pursue my passion for programming. I did hands-on projects and learned **web development**. My favorite part of programming is the problem-solving aspect. I love the feeling of finally figuring out a solution to a problem. My core stack is **React and Next.js.** I am always looking to learn new technologies. I am currently looking for a **full-time position** as a frontend web development.

PROJECTS

YouTube Clone

A YouTube clone app with a modern UI. It have features of the original YouTube app, such as the ability to search for videos, watch videos in full screen.
